

DAILY EVENING BULLETIN.

VOL. 4--NO. 136.

MAYSVILLE, KY., THURSDAY, APRIL 30, 1885.

PRICE ONE CENT.

NO POISON IN THE PASTRY

IF

ARE USED.

Vanilla, Lemon, Orange, etc., Saver Cakes, Creams, Puddings, &c., delicious and not expensive. Dr. Price's Extracts are premade FOR STRENGTH AND TRUE FRUIT FLAVOR THEY STAND ALONE.

PREPARED BY THE
Price Baking Powder Co.,
Chicago, Ill. BAKED BY
Dr. Price's Cream Baking Powder

—

Dr. Price's Lupulin Yeast Gems,
FOR BAKING YEAST.
WE MAKE NOT ONE QUALITY.

DYSPEPSIA

is a dangerous as well as distressing complaint. If neglected, it tends by impairing nutrition, and deranging the system, to prepare the way for Rapid Decline.

BROWN'S
IRON
BITTERS
—THE
BEST TONIC.

Quickly and completely cures Dyspepsia in all its forms. It purifies the blood, strengthens the heart, stimulates the liver, purifies the blood, &c. It strengthens and purifies the blood, &c. Rev. J. L. ROSENTHAL, the founder of the New York Dispensary, says:

"Having used Brown's Iron Bitters for Dyspepsia and other diseases, I can assure you that it is a specific tonic medicine in highly. Also consider it a specific tonic medicine in highly."

Genuine has above mark and crossed red lines. DUNHAM'S CHEMICAL CO., BALTIMORE, MD. containing list of prices for recipes, instructions, &c., given away by all dealers in medicine, or mailed to any address on receipt of 10 cents.

SPRING OPENING!

Our Spring and Summer stock is now complete. Every advantage that experience and the best of taste can secure we have.

Call and inspect the large stock of Fashionable Ready-made

CLOTHING

just received. A full line of Mohair, Merino, new Diagonals, Corkscrews, etc. The stock in our

MERCHANT TAILORING

Department is the choicest we have ever had. Prices the lowest and satisfaction guaranteed. Give us a call.

VICROY & LEE.

SIMMONS Medicated Well-Water

A Specific for DYSPEPSIA and

DISEASES OF THE KIDNEYS.

It has been used with most gratifying success in many obstinate cases. Prof. W. Clark, professor of Chemistry at the University of Michigan, has made a comparison to the same class with that of the Alleghany Springs, of Virginia, and found it to be equally well known to be stated here.

Those who desire to try this famous water may do so by addressing Mr. Vicroy, 1101, Ohio Captain, U. M., Holloway, Cincinnati, Ohio. J. J. Raife, Cincinnati, Ohio. For sale in half barrels and jugs.

GUN. G. M. MONK, Proprietor.

W. D. MITCHELL,

CONFECTEUR,

and dealer in home-made candies, fruits, etc. Water the best in town. Ice Creams and ice of all kinds. Second street, Maysville, Ky.

SMITH'S KIDNEY TONIC—TRY IT.

WASHINGTON'S WIRE

STATISTICS FOR ECONOMISTS AND TARIFF REFORMERS

General Grant's Salary and How It Draws It—Mr. Cleveland and Mr. Lawton—Panama's Flight—Appointments—Topics—Timely Topics.

WASHINGTON, April 29.—Mr. Nimmco, chief of the bureau of statistics, has just recently prepared a very useful set of tables, in which the imports into the United States for the year ending last July are divided into several heads, as follows:

Class A—Articles of food and live animals.

Class B—Articles in a crude condition which enter into the various processes of domestic industry.

Class C—Articles partly manufactured, for use as materials in the manufacturing and mechanic art.

Class D—Manufacturers articles ready for quotation.

Class E—Articles of voluntary use and luxuries.

It is not easy, as Mr. Nimmco confesses, to make such a classification, and he does not doubt there will be differences of opinion among students and economists about some parts of his classification. But the tables are very suggestive, and are in many ways extremely valuable.

Class A—Articles of food and live animals, it appears that in round sums \$12,000,000 worth in value come in free of duty and \$12,000,000 pay an average duty of forty-five per cent. On the first \$12,000,000, there is no duty, and on the second \$12,000,000, there is a flat tax for \$12,000,000, Hawaiian sugar for \$7,000,000, imported animals for \$5,000,000, special for \$4,000,000, and what seems amazing—eggs for over \$2,000,000. Tea, coffee, &c., pay a flat tax of \$5,000,000, and could be quite dutiable.

They are fair and proper subjects of taxation, and could be made to yield a revenue of \$20,000,000 or \$25,000,000 without causing any hardship. In fact it is notorious that when Congress abolished the duty on coffee, the producing countries at once put up the price on us.

The dutiable under the same class is made up, very largely, of sugar, tobacco, &c., which come in free of duty, \$12,000,000, and on this necessary of life duty of fifty-three per cent. is laid. It is curious to see that we import and levy duty on \$6,000,000 worth of breadstuffs, \$3,000,000 of meat and fish, \$2,000,000 of rice, \$1,700,000 of flour, \$1,500,000 of sugar, \$1,500,000 of tea, \$1,500,000 of fruits and nuts.

In class B, "articles in a crude condition which enter into the various processes of domestic industry," \$47,000,000 worth is free of duty, and on this necessary of life twenty-four per cent.

In the free list in the schedule the largest single items are chewing-gums, \$30,000,000; hives, skeins and wire, \$25,000,000; linseed oil and guia, porcha, \$25,000,000; cassia, oranges, \$5,500,000; raw silk, \$3,000,000; and wood \$3,000,000.

In the same class, on the dutiable side, are found salt, the value of \$1,500,000, which comes in free of duty, and on this twenty-three per cent. which also ought to be copper ore, the duty on which is extremely prohibitory, because the limit is only \$320,000. The duty of twenty-five per cent. is laid on iron and steel, and on this duty a duty of eighty-one per cent. and only \$20,000 worth are imported. Iron bars of certain kinds pay a duty of fifty-nine per cent, and only \$1,000 worth were imported. On iron rods, \$1,000 worth is laid for drawing, and for drawing and for other purposes, so high a duty—forty-one per cent—is laid that of the article in universal use and demand only \$4,000 worth was imported, according to Mr. Nimmco. That means of course, that a few thousand dollars' worth of iron and steel are imported, but the remainder is dutiable.

On the dutiable side of Mr. Nimmco's class C are entirely worth the study of economists, consumers of kind.

A general revenue should be needed, if it would be thought advisable to lower the sugar duties and put salt on the free list; here, in class C can be found the means of largely increasing the revenue, and at the same time cheapening the cost of living.

Mr. Nimmco's class D stands for "manufacturing and mechanic arts," \$18,500,000 are free and \$17,500,000 dutiable. It is in this class that the greatest revenue is to be had, as the figures in this table plainly show, not laid with any view to revenue at all, but with direct and crushing loss to the revenue. For instance, sugar, which costs 10c. per pound and pays a duty of eighty-one per cent. and only \$20,000 worth are imported. Iron bars of certain kinds pay a duty of fifty-nine per cent, and only \$1,000 worth were imported. On iron rods, \$1,000 worth is laid for drawing, and for drawing and for other purposes, so high a duty—forty-one per cent—is laid that of the article in universal use and demand only \$4,000 worth was imported, according to Mr. Nimmco. That means of course, that a few thousand dollars' worth of iron and steel are imported, but the remainder is dutiable.

On the dutiable side of Mr. Nimmco's class E are entirely worth the study of economists, consumers of kind.

A general revenue should be needed, if it would be thought advisable to lower the sugar duties and put salt on the free list; here, in class C can be found the means of largely increasing the revenue, and at the same time cheapening the cost of living.

A general revenue should be needed, if it would be thought advisable to lower the sugar duties and put salt on the free list; here, in class C can be found the means of largely increasing the revenue, and at the same time cheapening the cost of living.

Mr. Nimmco's class D stands for "manufacturing and mechanic arts," \$18,500,000 are free and \$17,500,000 dutiable. It is in this class that the greatest revenue is to be had, as the figures in this table plainly show, not laid with any view to revenue at all, but with direct and crushing loss to the revenue. For instance, sugar, which costs 10c. per pound and pays a duty of eighty-one per cent. and only \$20,000 worth are imported. Iron bars of certain kinds pay a duty of fifty-nine per cent, and only \$1,000 worth were imported. On iron rods, \$1,000 worth is laid for drawing, and for drawing and for other purposes, so high a duty—forty-one per cent—is laid that of the article in universal use and demand only \$4,000 worth was imported, according to Mr. Nimmco. That means of course, that a few thousand dollars' worth of iron and steel are imported, but the remainder is dutiable.

On the dutiable side of Mr. Nimmco's class E are entirely worth the study of economists, consumers of kind.

A general revenue should be needed, if it would be thought advisable to lower the sugar duties and put salt on the free list; here, in class C can be found the means of largely increasing the revenue, and at the same time cheapening the cost of living.

THE DAILY BULLETIN.

THURSDAY, APRIL 30, 1885.

The strike of the Cincinnati shoemakers has been settled by arbitration.

GERMANY is not disposed to become the mediator between Russia and England.

The New York World nominates Alon G. Thurman, for Governor of Ohio.

There are now about two thousand vacancies to fill in the fourth-class post-offices.

The jury in the Powell will case, on trial in Washington, returned a verdict sustaining the will.

The French at Panama boast that the protest from Paris caused the American troops to leave the city.

The Mercury says that a larger acreage of corn is being planted in Nicholas County than for years past.

It is reported in Cincinnati that the Police Commissioners intend to suppress Sunday theatrical performances.

DICKSON, foreman of the jury in the Star Route cases, charged with receiving a bribe, was acquitted at Washington.

A WASHINGTON dispatch says there is a strong probability of an extra session of Congress as soon as war is declared.

The tobacco market this week has been very dull and prices low. It has not been so much depressed since 1878.

COLONEL DICK WINTERSMITH, of Kentucky, is an applicant for the office of Recorder of Deeds for the District of Columbia.

The Russian corvette Strelak has put to sea from Norfolk harbor, but the British man-of-war Ganet lies still in Hampton Roads.

It is asserted in British diplomatic circles that Prince Bismarck has been urging Turkey to side with Russia in the event of war.

The Postoffice Department reports that the results of two-cent postage have more than realized the most sanguine expectations of its warmest advocates.

It is said that the Commissioner of Internal Revenue is disposed to reduce the Collection districts in Ohio from five to three, the respective headquarters to be at Cincinnati, Cleveland and Columbus.

ATTORNEY GENERAL GARLAND decides that General A. R. Lawton is eligible to the position of Minister to Russia, to which position he had been nominated by the President. General Lawton has declined to accept the appointment.

The bill requiring Wilsons in the larger cities of Ohio to be closed up from midnight to 6 a. m., has been passed by the Legislature. Violators of the law will be fined in any sum not exceeding \$100 or be imprisoned not exceeding thirty days, or both at the discretion of the court.

The President has removed five Revenue Collectors. Among them was Craig, of Virginia, who wrote an insolent letter in reply to a request for his resignation, questioning the right of removal. It is not thought probable that other removals of Collectors will be made before the end of the fiscal year.

A WASHINGTON dispatch says it is the intention of the Commissioner of Pensions to reorganize the Medical Examiner's Corps of that bureau at once. One Republican will be retained and two dropped, and two Democrats will be appointed to fill the vacancies in the boards at different points throughout the country.

POSTMASTER GENERAL VILAS has issued a general order directing postmasters, in conformity with the laws passed by the last Congress, to charge postage on first-class mail matter, on and after the first of July next, at the rate of two cents per ounce or fraction of an ounce, instead of two cents per half ounce, and to reduce the rate of postage on second class matter from two cents to one cent per pound.

It is announced that it is the intention of Postmaster-General Vilas to make changes in the country postoffices beginning with the removal of twenty-five per cent in each county. It is his immediate object to weed out the most obnoxious characters. It is thought that between now and June 1st, there will be about five thousand postmasters. Virginia will be attended to first and Ohio next.

The New Orleans Picayune of May 1st will be printed on bigsize paper, which it describes as a fine, silky, firm texture fabric, made from the refuse of sugar cane. The Picayune desires to give thorough advertisement to what can be accomplished in the South by the development of home industries and the frugal using of every material, waste, or original raw product possessed by the productive South.

A CHANGE OF BASE.

The Seat of Government of West Virginia to be Moved.

WHEELING, W. Va., April 30.—The work of embarking the property of the state government, now existing in the seat of government at Charleston, has been commenced, and will be continued until Friday at the close of business, at which time the seat of government ceases to exist at this place.

The state authorities have occupied a building for ten months, occupied, free of cost, a handsome capitol building erected expressly for the state by the city. In 1871 a vote of the people of the state was held to determine of removing the capital permanently to one of the towns of Charleston, Martinsburg, and Clarksburg, Whichever not contending, in consideration of the west of government being allowed to remain here until 1883. Charleston was chosen by a majority of all the votes, and on May 1st, 1871, was selected as the date of transfer. In 1871 the state began the construction of a capitol building at Charleston, which is not yet completed.

There has been some talk here of adjoining the state government from removing from the city, but the matter is thought to have dropped. The present state house will hereafter be used as a city hall.

MEDICAL MEN.

The Annual Convocation Being Held in New Orleans, April 26.—The American medical association has convened in annual session here. The names of about 500 doctors were registered, and 300 more are expected. The meeting was opened by prayer by Dr. Price, followed by the introduction to the session of the president, Henry F. Campbell, of Augusta, Ga. Dr. Samuel Lozman, of this city, delivered an address of welcome, which was followed by the singing of the national anthem.

A number of new reports were read from different sections and reports of special committees were made. The feature of the night session was the discussion of the reports of committees.

THE CONDENSER.

Fresh, Pithy News Items Bailed Down To The Hurried Reader.

Affairs in Panama are decidedly unsettled.

The bronze bust will be made of Gen. Grant.

Iron manufacturers alliance in session at Pittsburgh.

The war in the northwest is Anglo-Rusianizing.

The Danish military reserve has been mustered.

The Danes, stone-masons are striking turbulent.

Mingo Junction, Ohio, steel nail mill has resumed operations.

Coal is extremely scarce in St. Petersburg and brings fabulous prices.

Eminent citizens of New York dined Miss Pendleton at Delmonico's.

Material are so plentiful in New York that they are sold at fifty cents per wagon load.

Westinghouse machine company, Pittsburgh, has discharged seventy-five men; due times.

The military hospital at Tiflis and Baku are being rapidly prepared for the reception of patients.

Laura Edwards tried to suicide at Richmond, Ind., because her father disliking young man.

A long telegraph telegram has been received at our office in St. Petersburg from Mr. Gladstone.

Mr. Gladstone's speech in the house of commons on the vote of credit is highly praised by the German press.

Annie Landis was found nine miles from Hinsdale, Ill., where she had been missing also, with no mishap.

The wife and daughter of H. C. Burke were drowned in a cistern, at Arkadelphia. The mother saw the child fall in and lost herself in attempting to rescue it.

The old state house bell of Ohio, which first did service at Chillicothe eighty years ago, has been taken from its long and silent repose, and is now in the state library at Columbus.

Scared by demonstrations of an excited populace, John Rapp has returned to his Sabina, O., home. B. F. Fertich writes his wife that he had no part in the affray.

Gov. McDaniel, of Georgia, has honored the requisition of Gov. Hill, of New York for the arrest of President W. S. Roberts, of the broken bank of Augusta, and he is now the prisoner of Sergeant Reilly, of New York.

A Remarkable Case.

Mr. Henry Ellis, 500 Scott street, Milwaukee, Wisconsin, writes: "Dr. S. B. HARTMAN & CO., COLUMBUS, O.: I am sorry to inform you of the death of your patient, Mrs. Mary E. Hartman, who is a most miserable sufferer from the various annoying and distressing diseases of delicate persons, while caused me to be confined to my bed for two years, and nothing would go to bear my weight upon my feet. I was treated by the most reputable physicians in our city, each and all saying they could do nothing for me. I had given up all hopes of ever being well. In this condition I was sent to Dr. J. L. PERUMA, and PERUMA, and I am most anxious to say in three months I was perfectly well—entirely cured, without any appliances or support of any kind."

Mr. G. A. PROUD, 100 New Portage, Summit County, Ohio, writes: "My wife has been sick for about five years. In the first place the doctor called it leucorrhœa, and treated it about one year, and she grew worse, and turned to ulceration of the womb, and was treated for that two years, but she did not improve, and the doctor gave her up. Then I employed Dr. Underwood, one of the best doctors of Akron, but under his treatment she grew worse. She was paralyzed; she had lost all of the strength in her legs, and could not walk for nearly two years. About six months ago Underwood gave her up. She tried your PERUMA. She has taken three bottles, and it did more good than any other medicine. The pain relieves about 90% and her eyesight is getting better. We will continue the use of PERUMA until she is well."

Mr. Isaac Nicomedes, Schellsburg, Bedford County, Pa., writes: "I am a son of duty to the public, to make a record of your remarkable case. I am a sufferer from a chronic disease, a number of years, and have been unable to walk for many years. I have seen three bottles of PERUMA and MANALIN did wonders for me. I used three bottles of PERUMA and one of MANALIN, and now I am better health than I have been for ten years, and can heartily recommend your medicine to all suffering from that dread disease, catarrh."

Mr. I. W. Wood, Mt. Sterling, Ohio, says: "Your medicine gives good satisfaction. My customers speak highly of its curative properties."

THE DAILY BULLETIN.

THURSDAY, APRIL 30, 1885.

ROSSER & MOCHRAY,
Publishers and Proprietors,
TO WHOM ADDRESS ALL COMMUNICATIONS

And now, good friends,
Please keep in sight,
The Theban Chitlin
To-morrow night.

The new Bonanza made a successful trial trip on Tuesday.

The work of repairing Limestone bridge has been finished.

There are eight firms engaged in the tobacco trade at Manchester.

C. S. YOUNG & CO. have a full line of colored shirts, neckwear, light weight stiff hats and E & W. collars and cuffs.

The funeral of Mr. C. S. Miner's little daughter will take place from the family residence this afternoon at two o'clock.

A beautiful and useful ornament is one of those spashers, painted, selling very low, at G. W. Blatterman's book store.

Two farmers, as a general thing, have finished plowing, and are engaged this week planting corn. The ground is said to be in the best condition for the work.

A fine brick pavement has been laid in front of Messrs. D. M. Frazer & Co.'s, warehouse on Second street. It is a fine piece of work.

Call at J. Blakborough's jewelry store and see the new stock just received. Wedding and anniversary presents a specialty. Prices very low.

Mr. GEORGE BROTHMAN, of Nicholas County, while on his way to Mt. Olivet a few days ago, was thrown from his horse and had his ribs broken.

John W. MITCHELL, of Bourbon County, raised one thousand five hundred and eighty pounds of tobacco on seven-eighths of an acre of ground and sold it at 9 cents all around.

The Irish dialect in the play of "Kathleen Mavourneen" has been practiced with great care. The club hopes that those of their Irish friends who hear it will pronounce upon it as "well done."

Mr. GEORGE SCHATZMAN, the East Mayville confectioner, has opened a handsomely furnished ice cream saloon and will provide his friends during the season with the best quality of cream. You are invited to call.

The towboat Condor, owned by the Pomeroy Coal Company, was destroyed by fire at Pomeroy yesterday morning. The fire is supposed to have been the work of an incendiary. The boat was valued at \$15,000 and was insured for \$6,000.

Needham, the Evangelist.
The Louisville Commercial of yesterday, says that "Rev. George C. Needham, the evangelist, who made such an impression in Louisville in his meetings here, is to be back and will preach next Sunday at 3:30 p. m., in the New Grand Theatre." Mr. Needham has been invited to hold a second meeting in Louisville and will come from there to Mayville, May 17th.

Dissipation in Java.
In some parts of the country the earthquakes have left not a tree standing; and the soil is a wilderness, looking like the bottom of a dried-up sea. In fact the region is in as bad a way as the worn-out stomach of an old dyspeptic. Earthquakes cannot be prevented, but dyspepsia can, and the timely use of Brown's Iron Bitters will do it. This best of family medicines can be bought of any druggist at a dollar a bottle. Don't let your stomach become a desolation for the lack of it.

The trial of the suit of John Fox against the Kentucky Central Rail Road Company, was concluded Wednesday afternoon in the Circuit Court, the jury rendering a verdict for the plaintiff for \$2,500 damages. The suit was brought some months ago by Fox for \$25,000 damages for injuries sustained by him last June. At the time the accident occurred he was in the employ of Owen, Parker & Co., and was engaged in loading a car, near the depot, with coal for that firm. Some of the employees of the road were engaged in "making up" the freight train for that day. As the locomotive approached Fox the mule attached to his cart became frightened at the escaping steam, and, turning back the cart in front of the train. A collision resulted—Mr. Fox escaping with a broken thigh bone and other injuries. The trial lasted for several days and resulted, as above stated. Messrs. Campbell & Worthington, Cochran & Son and Phister & Son represented the plaintiff, and Messrs. Wadsworth & Son and Wadsworth & Bro, the defendants.

PERSONALS.

Mr. W. Harlan Cord, of Flemingsburg, is in the city to-day.

Mr. Thomas Rowland, an old citizen of Toluca, died last week.

Mrs. Emily H. Tabman, a Kentucky-born lady, now living at Augusta, Ga., is in her ninety-second year. She is possessed of wealth, and distributes her income for religious purposes. The Christian Church, at Frankfort, was largely built through her generous gift, and many other churches in the State have received aid from her purse.

Sales of Land.

The following transfers of real estate have been recorded at the office of the County Clerk since our last report:

Mrs. M. A. Dimmitt's executors to W. G. Blum, house and lot on Third street, Fifth floor, James Malley and wife to John Bulkeley, unit No. 1, corner of Main and Second streets, and one-half acre of land on Pummill Creek; consideration, \$75.

Mr. J. C. Terrell to George Verner, one-fourth acre of land on Anderson's Ferry property, consideration, \$25.

G. C. Owen to James C. Owens, provided one-sixth interest in one hundred and forty acres of land on Clark's Run; consideration, \$25.

An entertainment will be given in the basement of the M. E. Church, South, on Saturday evening at half-past seven o'clock, the proceeds of which will be given to the Juvenile Missionary Society of the church. Admission 10 cents. Ice cream, cake, home-made candy and other refreshments will be provided.

SCHOOL NOTES.

PUBLIC SCHOOL NO. 1—MAYVILLE.

Second assistant's room—the room is eighteen by twenty-five feet with nine feet ceiling. The room is papered and presents a very neat appearance. The room is furnished with a desk, a teacher's desk, two recitation seats, twenty feet of blackboard and reading charts. Grades B. and C. complete the pupilage, with an average age of eight and one-half years. T. Reed, G. C. Owen, T. C. Terrell and Jennie Schenelle have lost no time.

Miss Belle Goling is teaching her year in this room. She is a very faithful teacher and uses every available means to keep up with the progress of the work. Though not required by the board, she conducts a written examination in grade C. each month. There is another very pleasant and profits able exercise in this room, referred to as "writing." Miss Bell Goling, a student in the room, reads a story to the taste and capacity of the children, and it is their work to reproduce, as well as possible, on their slates what has been read. This exercise is designed, she says, to the board and with the class, carefully outlines the subject, after which the children write. The discipline of Miss Goling's room is very good.

Third assistant's room—This is in size and finish almost the duplicate of the second assistant's room, but presents a more pleasing and home-like appearance. The walls are adorned with pictures and the mantel with the broc-arcade. The picture, though not the broc-arcade, are not quite as attractive as the first room. The room is comparatively small expense, the school room can be made more cheerful and pleasant to children. In this room is grade A. with an average age of six years. The discipline of Miss Goling's room is very good.

WANTED—To sell feed supplies, oats, corn

W & CO., CHICAGO PRODUCE COMPANY, situated on Second street, below Second.

WANTED—to buy wool and country produce. Fresh eggs wanted in quantity.

MARY ANN WADSWORTH, 101 Main street, below Second.

The Latest Thing in Stockings.

(Philadelphia Record.)

Have you seen the latest thing in stockings? They are simply enchanting. They are meant for summer wear, but the hosey mills are already turning out extensive orders. What are they like? They are the most delicate, fitting, shape, elegant—then imagine that stocking knit in fine, but open network. There you have it. They are long and reach to the thigh, and come in various colors, with black, dark blue and white stripes. The garter band is something unique. I confess that they are something for bad weather, though a wind may be too large, especially as the price is much less than the regulation silk stockings. All the new fashions in hosey stockings are to be had at John Bull's, 101 Main street, and in a few weeks the net-work stockings will be the talk of the beauty boudoir.

CITY ITEMS.

TRY Langdon's City Butter Crackers.

Fish at John Wheeler's at 6, 8 and 10 cents a pound.

Lawns and white goods of all kinds just received, at Paul Heidrich & Bro's.
